2¢ A word to those who were afflicted with Chills and Fever at least eight months during the past year, and who, in their vain efforts to rid themselves of that baneful disease, took at least one dose of quinine pills, which can never, in a protracted case, effect a permanent cure.

On the first attack of chills, in the first part of the season, it should be eradicated entirely from the system, unless you wish to die with it, or with its morbid effects, or subject to relapse every fourteen days or otherwise. To effect this cure, Dr. Engle's Indian Queen Sugar Cane Tonic is the only remedy known. They will never fail to effect a permanent cure when used according to the directions.

For sale by Townsend Brothers, sign of the Golden Master, and by S. J. Wade, Druggist, Indianapolis.

Froth from a Slight Cold.

By neglecting those salutary precautions which common sense dictates, many, very unfortunately, fall victims to their negligence. We have seen the young bold, blossoming as we are, as the bird of Paradise and the fair flower of hope, the pride of her father and the joy of her mother—her cheeks flushed with anticipation, and her eye beaming with the soft expression of love—the gay dreams of life dancing on her fancy with the rich and variegated tint of the rainbow's promise. We have seen all this changed—aye, the wedding garment itself, the emblem of purity for the sepulchre of the dead; and all this from meeting a woman whom she loves, and it is too late, use DR. ROGERS' LIVER WASH AND TONIC, which gives immediate relief to thousands of our most intelligent families now admitted of its most extraordinary cases. The age, the youth, and the beautiful, and the young speak forth its praise, and wait so long as it makes positive cures, and cheers the despairing family friend.

Those afflicted with diseased lungs should call on Crowley & Cox, and the certificates of such men, Dr. Wan J. Richards, Judge William Burke, and Dr. Hirsh Cox, late Professor in Cincinnati Eclectic Medical College.
